Our Graphic Arts program is designed to prepare our students for entry-level jobs in the printing and graphic design work fields.

Your learning experience will include practical workshop experience in desktop publishing in various software programs. You will learn the importance of successful layouts and the process of arranging your work in such a manner that you will gain recognition for your thoughts and ideas.

As you progress many types of machinery will be introduced. As you learn the basics, we will incorporate the more advanced aspects of the graphic arts program to include the world of photography, plate making, offset press operations, and basic screen printing.
